

## KFU: Martha Long's Periodic Docket-Summary Emails

Litman v. Goldberg, Index No. 524343/2025 (N.Y. Sup. Ct., Kings County). Window: 6/14/2023 (arbitration) → 7/18/2025 (termination).

### Purpose

Per Mr. Litman's 4/17/2026 directive, the daily sheets Martha Long sent to King Faisal University are the spine of the KFU § 51 presentation — single emails listing many matters at once, each tied to a docket number and each tied to a patent matter. This binder produces the top-20 of those daily sheets as native Bates-stamped email exhibits, ranked by the number of distinct docket numbers referenced in the single email.

Each exhibit below is a single NGM-authored email that, on its face, identifies 9–32 separate KFU matters and therefore 9–32 separate commercial uses of Mr. Litman's firm identity on one day. Total dockets covered across the 20 exhibits in this binder: 241.

**Subject:** Placing Divisional Applications on Hold for King Faisal University

NOTE: This message is being sent via WhatsApp. This email is for our records.

Dear Prof. Hany:

I hope you are well.

We are working on implementing the instructions we have received to place all pending new divisional application filings on hold. While most of the divisional applications that have been ordered are based upon applications that are currently under active prosecution, some of the pending divisional applications are for applications that either have just been allowed, or for which the issue fee has been paid. For those applications, we wish to remind you that failure to file the divisional applications before the parent application issues will result in losing the opportunity to pursue patent protection for the subject matter of the claims that were not allowed in the parent application. Once the issue fee has been paid, the parent applications will generally proceed to issuance in a matter of a few weeks.

Thus, this represents our last opportunity to file these divisionals (they cannot be filed

once the parent application issues). For your reference, the following divisional applications would most likely be lost if they are not filed in the coming weeks:

33185.32A - parent 33135.31U  
33185.60A - parent 33125.48U  
33185.59A - parent 33125.48U  
33185.29A - parent 33130.24U  
33185.69A - parent 33135.79U

Per our current understanding we will take no further action with respect to these previously ordered divisional applications unless we receive updated instructions from you.

Please do not hesitate to contact us with any questions.

Regards,

Martha
