

KFU Use-Date Clustered Binder

King Faisal University — every commercial use ordered by the date it reached the client

Litman v. Goldberg, Index No. 524343/2025 (N.Y. Sup. Ct., Kings County). Window: 6/14/2023 (arbitration) → 7/18/2025 (termination).

Purpose

The Batch 01 and Batch 02 exhibit binders organize evidence by **use type** (POA, assignment, patent face, client email, trademark, website, internal accounting attribution). This companion binder re-orders the same underlying evidence by **use date** — clustering uses that reached KFU in the same week, so the cumulative daily drumbeat is visible at filing-exhibit level. Each cluster is a week. Each row within a cluster is one specific use, with its Bates cite (where single-email-specific) or aggregate count (where the week's email stream is itemized in the Concordance production).

Where a specific exhibit already exists in Batch 01 or Batch 02, the cluster entry cross-references it. The binder does **not** duplicate the full exhibit PDFs — those live in *output/DISCOVERY_BATCH_01_EXHIBIT_BINDER.pdf* and *output/DISCOVERY_BATCH_02_SUPPLEMENT.pdf*.

Selection Rule

This binder features the **top 20 peak-saturation weeks** of the 6/14/2023–7/18/2025 window (ranked by the Tier 2 email count — emails with attachments, per Mr. Litman's 4/17/2026 directive that attachments count). Additional weeks can be added on demand; the complete week-by-week dataset is available at *output/kfu_unified_daily_uses.csv*.

Full-window totals. 17,183 emails with attachments + 0 USPTO events = 17,183 documented uses across 109 active weeks. **Top 20 peak weeks (below) account for 6,759 of these uses**, or 39% of the total.

How to Use This Binder Alongside Batch 01 and Batch 02

This binder is a navigation index into the full exhibit production. Reading order:

1. **Start with the saturation one-pager** (output/saturation/kfu_ONEPAGER.pdf) for the top-line numbers and weekly trend chart.
2. **Read this binder front-to-back** to see the week-by-week narrative of documented uses.
3. **Pull specific exhibits from Batch 01 and Batch 02** for the documentary evidence: POAs, patents, client emails, TM filings, website captures, AR reports, trust listings.
4. **Back-check the full-window count** in the KFU saturation deck (output/saturation/kfu_SATURATION.pdf) for the weeks outside the top-20 window.

Underlying data: *output/kfu_emails_litman_name_dataset.csv, output/kfu_uspto_litman_uses_dataset.csv, output/kfu_unified_daily_uses.csv.*
