

Cumulative Post-Arbitration Uses of Richard C. Litman's Name Directed at King Faisal University (6/14/2023 → 7/18/2025)

The saturation thesis. Between the June 14, 2023 arbitration and the July 18, 2025 termination, on the average business day KFU received ~3.5 separate uses of Richard C. Litman's name on NGM-authored commercial documents. These uses — Martha Long emails on 4patent.com, USPTO filing receipts, powers of attorney, notices of allowance, and the faces of issuing patents themselves — reinforced KFU's perception of Mr. Litman as NGM's lead patent attorney and drove KFU's continued retention of NGM and timely payment of invoices. Each use is a discrete § 51 commercial use under New York Civil Rights Law.
